

SENATOR SIMPSON: Senator Warner, I had some misgivings under this where people are buying motor vehicles and then they are driving them for extended lengths of time and I find oftentimes that they take the intransit signs and they just keep changing the dates, and I could show you specific cases where people are going six or eight months and they still don't have any licenses plates or a registered vehicle. Now would this do anything to eliminate this?

SENATOR WARNER: Senator Simpson, it is intended at least to hopefully do it. As I understand the practice now, particularly between individuals seller and purchaser and sometimes the very thing that you suggest happens and they just write out by hand an intransit sign and then go along on that for a couple of weeks and then they make out another one and stick it on the window and go a little bit longer, and the very thing that you are talking about

(end belt #3A)

(start belt #4A)

does happen and the police of course have no way of knowing how long, the car has been that way, and it is hoped that through this procedure that they will be able to identify sales best or better when they occur. I think that the same problem exists with the collections of sales tax too, as I would understand it if they are not properly registered the sales tax is not collected.

SENATOR SIMPSON: As I would understand it then under this the person buying it would have a form which has been filled out by the seller and it would give the specific date as to when they had bought it, then the officer in checking across or the car wouldn't or that didn't have license plates might ask for the form to see the actual date on so that there would be a greater possibility if they would have to get the car registered and license plates on it.

SENATOR WARNER: That is on the proposed bill, I would agree with that.

SENATOR SIMPSON: I too agree with that.

PRESIDENT: Any further discussion of LB826? Any further discussion? Senator Warner any closing on it? Alright then the question is shall the LB876 be advanced from general file to E & R Initial. All those in favor vote aye, those opposed vote no. 876, you are voting on the advancement of 876 as amended from General File to E & R Initial. That motion still requires 25 votes. Thank you. Are you all through voting? Clerk will record.

CLERK: 26 ayes, 0 nays Mr. President.

PRESIDENT: Very good, LB876 is advanced. Before we take up 861, which is Senator Marsh's bill, the Chair would like the privilege of introducing 40 Junior High School students that we have from Stanton High School, they are from Senator Hasebroocks district, and we are delighted to have you here. They are up here in the north balcony. We are pleased to have you here today to observe....Senator Hasebroock, I knew you were
